I am a fresh graduate of S1 Computer Engineering from Telkom University Bandung with a GPA of 3.31. During my 4 years of college, I actively participated in various events in student organizations and one of them was the logistics coordinator at the Telkom Esport Championship event in 2021. I was also a practicum assistant for network security in the 2022-2023 period. I am also an alumni of the MSIB coding Batch 3 program Front End React Developer program in 2022. Currently, I am very interested in gaining experience in the field of web development, especially the react framework.
