PROFESSIONAL SUMMARY

IT Support professional with 2+ years of experience, currently transitioning into a Cloud/DevOps Engineer role. Hands-on experience building and deploying applications on AWS using Terraform, Docker, and CI/CD pipelines. Comfortable working in Linux environments with a strong interest in automation, cloud infrastructure, and system monitoring.

TECHNICAL SKILLS

Cloud & Infrastructure: AWS (EC2), Terraform

Containerization: Docker

CI/CD: GitHub Actions

Monitoring: Prometheus, Grafana

Web Server: Nginx

Networking & DNS: Cloudflare, Basic Networking

Operating System: Linux (Ubuntu)

Other: Git, GitHub

PROJECTS

Cloud Application Deployment Project (AWS)

GitHub: <https://github.com/EvoVincere>

Live: <https://iqbaalcloudporto.site>

- Provisioned cloud infrastructure on AWS EC2 using Terraform (Infrastructure as Code)
 - Containerized and deployed a React-based web application using Docker
 - Configured Nginx as a web server to serve static application
 - Implemented CI/CD pipeline using GitHub Actions for automated deployment
 - Configured domain and DNS management using Cloudflare
 - Implemented monitoring using Prometheus and Grafana to track system performance
 - Managed Linux server environment including Docker setup and networking
 - Designed end-to-end deployment workflow from infrastructure provisioning to monitoring
-

PROFESSIONAL EXPERIENCE

PT Bank Jago Tbk (via Vostra Internasional) | Jakarta

IT Field Support | Dec 2023 – Present

- Resolved 125+ monthly infrastructure and network-related issues (VPN, Wi-Fi, endpoints), ensuring high system availability

- Troubleshoot system and network issues, improving understanding of real-world infrastructure and distributed systems
 - Managed Google Workspace and implemented Context-Aware Access (CAA) policies to enhance security
 - Supported BYOD implementation and endpoint configuration for improved flexibility and compliance
 - Contributed to Windows-to-Chromebook migration and user environment setup
 - Supported virtual application delivery using Cameyo for cloud-based access
-

EDUCATION

Telkom University — Bandung

Bachelor of Computer Engineering (GPA: 3.31/4.00) | 2019 – 2023

ADDITIONAL INFORMATION

- Actively learning Cloud Engineering and DevOps practices
- Hands-on experience building real-world cloud deployment projects
- Strong interest in automation, infrastructure, and system reliability
